```java
import java.util.Scanner;

class loops
{
    public static void main(String args[]){
        Scanner x=new Scanner(System.in);
        System.out.print("Enter starting number : ");
        int a =x.nextInt();
        System.out.print("Enter the length : ");
        int b=x.nextInt();
        System.out.print("Enter the increment : ");
        int c=x.nextInt();
        System.out.println("The sequence is ");
        do
        {
            System.out.println(a);
            a+=c;
        }while(a<=b);
    }
}
```
